Professional Summary

Results-driven Software Engineer with 5+ years of experience delivering enterprise-grade applications using C#, ASP.NET Core, .NET, Azure and Angular. Experienced in Healthcare, FinTech and B2B SaaS products. Strong expertise in Clean Architecture, Entity Framework Core, Dapper, REST APIs, Microservices, Azure cloud services, client communication, project management and team leadership.

Professional Experience

Systems Limited — Consultant (Sep 2024–Present)
• Contributing to PartnerLinq, an enterprise B2B integration platform.
• Developing scalable backend services using ASP.NET Core, C# and Azure.
• Optimized a high-volume API by redesigning data retrieval logic, reducing unnecessary database operations and improving response time using Entity Framework Core and Dapper.
• Led a team of 2 developers to build internal utility modules that automated daily operational tasks and improved productivity.
• Participated in client meetings, requirement gathering and Agile planning.

NetSol Technologies — Software Engineer (May 2022–Aug 2024)
• Enhanced enterprise FinTech solutions for an international client.
• Built scalable backend services using .NET, SQL Server, EF Core and Dapper.

Hawk-Logix — Full Stack .NET/Angular Developer (Jan 2021–Apr 2022)
• Built healthcare management modules for patient records, appointments and hospital workflows using ASP.NET Core and Angular.

BM Global — Team Lead (Jan 2020–Aug 2021)
• Managed teams, client communication and successful project delivery.

Core Competencies
